**Public  
Works**

Volume/94

January/December 1963

Published by Public Works Publications

200 South Broad Street, Ridgewood, New Jersey

*This Volume of  
PUBLIC WORKS is  
available on  
microfilm through  
University Microfilms,  
313 North First Street,  
Ann Arbor, Michigan.*

**ANNUAL  
INDEX**

# PUBLIC WORKS INDEX

## January-December 1963 • Volume 94

### HIGHWAYS AND STREETS

#### Bituminous Pavements

Expressway Features Alternate Pavement Design	Feb.—92
Thin Bituminous Concrete Resurfacing	Feb.—109
Paver Speeds Shoulder Surfacing	Jul.—126
Minimizing Crack Reflection	Nov.—87
Two Methods Combined to Reclaim Embrittled Asphalt	Dec.—114

#### Bridges, Culverts and Tunnels

Research Study Seeks Ice-Free Bridges	Feb.—84
Linseed Oil Treatment on Bridge Structures	Feb.—115
Tunnel Between Cities Facilitates Airport Expansion	Mar.—84
This Street Program is a Success Story	Apr.—78
Bridge Deck Repair Technique	May—126
Expressway Ducks Washington Circle	Jun.—114
Grade Separations Complicate Urban Express Route	Jun.—129
Baltimore County Builds a Covered Bridge	Sep.—134
Concrete Resurfacing of Bridge Floors	Oct.—116
Dams Substitute for Bridges	Nov.—72
Stud Welding for Highway Safety	Dec.—88

#### Concrete Pavements

Improved Mudjacking	Jan.—90
Linseed Oil Treatment on Bridge Structures	Feb.—115
Expressway Features Alternate Pavement Design	Feb.—92
Better Surfaces and Stronger Shoulders Prolong Pavement Life	Mar.—110
Toll Road Pavements Protected with Linseed Oil Applications	May—108
Depth Marker Inspects Sawed Joints	Jul.—85
Sealing Contraction Joints and Cracks in Concrete Pavements	Jul.—103
Concrete Resurfacing of Bridge Floors	Oct.—116
We Trade Concrete for Right-of-Way	Oct.—156
Tollway Requires Well-Planned Maintenance Program	Nov.—92

#### Construction Methods

Highway Progress Through Research and Development	Feb.—110
Building Better Shoulders on County Roads	Mar.—104
When and Where to Use Thin Bituminous Overlays	Apr.—104
New Lands Make New Burdens for a County Engineer	Jun.—98
County Uses Nuclear Compaction Testing	Aug.—106
Excavations are Unsafe	Sep.—116
Radio Speeds Construction of Longest Suspension Bridge	Sep.—146
Minimizing Crack Reflection	Nov.—87
Steel Sheet Forms for Bridge Roadway	Nov.—118

#### Design

Expressway Features Alternate Pavement Design	Feb.—92
Design Standards for City Streets	May—102
Grade Separations Complicate Urban Express Route	Jun.—129
Improving Transportation on Long Island	Nov.—88

#### Drainage

Laboratory Model Shows Road Base Moisture	Mar.—92
Allocation of Storm Drainage Costs	Mar.—164
Underdrains Protect New Expressway	Jul.—103
Small Watershed Project Eliminates Flood Hazards	Dec.—103

#### Equipment

Planning and Budgeting Maintenance Operations	Feb.—186
Obsolete Sanitation Trucks are Back in the Chips	Apr.—106
Integral Hydraulic System for Highway Maintenance	May—123
Decentralized Operations Improve Service	Jul.—92
"Hot Box" Developed to Serve Patching Crews	Jul.—96
Paver Speeds Shoulder Surfacing	Jul.—126
County Uses Nuclear Compaction Testing	Aug.—106
Custom-Built Tower Truck Serves City	Sep.—102
Tractor-Mounted Snow Blower	Oct.—148
Alternator Selection	Nov.—100
Modern Equipment Speeds Road Work	Dec.—140
Township Grader Mounts a Snowblower	Dec.—95

#### Finance, Legal and Planning

The National Highway Research Program and the University	Jan.—67
Pilot Projects to Aid Design of Interstate System Rest Areas	Jan.—76
Highway Progress Through Research and Development	Feb.—110
Why Not Give Planning Credit Where Credit is Due?	Feb.—94
Planning and Budgeting Maintenance Operations	Feb.—186
Foreign Aid in Road Building	Feb.—188
Allocation of Storm Drainage Costs	Mar.—164
Planting the Expressway in Urban Communities	Mar.—112
What Does the Federal-Aid Highway Program Mean to You?	Apr.—107
What Can We Do to Strengthen the Highway Program?	May—158
New Lands Make New Burdens for a County Engineer	Jun.—98
Growing Highway System Meets Growing Traffic Needs	Jun.—103
Control Problems on an Interstate Watershed	Aug.—126
We Trade Concrete for Right-of-Way	Oct.—156
It Pays to Minimize Traffic Hazards During Road Construction	Oct.—126
How to Build Three-Dimensional Models	Oct.—133
Improving Transportation on Long Island	Nov.—88
Street Maintenance by Contract	Nov.—104
House Numbers for Urban and Fringe Areas	Dec.—121
Push Button Programming for the County Engineer	Dec.—97

#### Materials

Mobile Testing Laboratories for a City	Mar.—155
Slurry Seal—A Useful Maintenance Tool	Jun.—123
Salt for the Road	Jun.—126
Use of Calcium Chloride in Highway Construction	Jul.—74
Thin Bituminous Concrete Wins Popular Approval	Jul.—80
Epoxy Resin Paving Cements	Jul.—97
Gravel Roads Make Special Problems	Sep.—118
Experiences with Slurry Seal	Oct.—102
A Testing Laboratory for Smaller Cities	Oct.—131

#### Maintenance Plans and Programs

Improved Mudjacking	Jan.—90
Turnpike Maintenance Standards for Interstate Highways	Jan.—72
This Street Program is a Success Story	Apr.—78
Toll Road Pavements Protected with Linseed Oil Applications	May—108
Bridge Deck Repair Technique	May—126
Responsibility for Maintenance of Interstate Highways Through Cities	Aug.—182
Maintenance of Joints, Cracks and Spalls	Oct.—104
Tollway Requires Well-Planned Maintenance Program	Nov.—92

Street Maintenance by Contract	Nov.—104
Push Button Programming for the County Engineer	Dec.—97
Street and Alley Maintenance	Dec.—170

#### Turf and Roadside Maintenance

Soil Sterilants Find Acceptance	Jan.—136
Planting the Expressway in Urban Communities	Mar.—112
Larger Mowers Prove Usefulness	Apr.—179
Seeding and Sodding an Interstate Highway	May—146
A Challenge: Preservation of Shade Trees	Jun.—95
Herbicides in Roadside Turf Management	Jun.—110
Chemical Mowing: A Success in Ohio	Jun.—117
Solving Leaf and Debris Problems	Dec.—118

#### Two-Way Radio

CD Communications for a County	Feb.—142
Radio Control Network Speeds Traffic Flow	Jun.—112
Two-Way Radio for Iowa County Highways	Sep.—162

#### Safety

Study Considers "Driver Inattention" Accidents	Jun.—116
Lighted Expressway Scores Safety Record	Sep.—164
It Pays to Minimize Traffic Hazards During Road Construction	Oct.—126
Mirrors for Deer Crossings	Nov.—114
Stud Welding for Highway Safety	Dec.—88

#### Snow and Ice Control

Turnpike Maintenance Standards for Interstate Highways	Jan.—72
Straight Rock Salt Keeps Winter Roads Open	Jan.—80
Heavy Snow, Heavy Traffic Challenge Turnpike Crews	Jan.—95
Research Study Seeks Ice-Free Bridges	Feb.—84
New Techniques Used for Clearing Airport Runways	Apr.—84
Conference Studies Urban Snow Removal	Jun.—136
A Commuting Town Improves Its Winter Maintenance	Aug.—122
Utility Vehicles Can Be Effective Snow Fighters	Aug.—92
Winter Maintenance Program Passes Storm Test on Turnpike	Aug.—103
Guardrail Protected by Snow Plow Roller	Aug.—140
Straight Chemicals Keep Highways Clear	Sep.—107
Good Records Contribute to Winter Maintenance	Sep.—113
Training for Effective Snow and Ice Control	Sep.—206
Modernized Winter Maintenance Operations Bring Results	Oct.—129
Tractor-Mounted Snow Blower	Oct.—148
Snow Melting for Montreal	Dec.—128
Township Grader Mounts a Snowblower	Dec.—95

#### Stabilized Surfaces and Bases

Economical Street Construction with Lime Stabilization	Jan.—81
Better Surfaces and Stronger Shoulders Prolong Pavement Life	Mar.—110
Salt for the Road	Jun.—126
Use of Calcium Chloride in Highway Construction	Jul.—74
Gravel Roads Make Special Problems	Sep.—118

	Month and page
<b>Street Cleaning</b>	
Employees' Suggestions Cut Sweeping Costs	May—137
Boston Street Sweeping	Nov.—56

### Street and Area Lighting

New Expressway Lighting	Jan.—75
Traffic Markers Illuminate Safety Dividers	Feb.—105
Redevelopment Plan Starts with New Downtown Lights	Feb.—150
Lighting Plays Key Role on Double-Deck Bridge	Mar.—94
City-Wide Lighting Program Cuts Crime, Accidents	May—136
Expressway Ducks Washington Circle	Jun.—114
Lighting Units Have Colonial Design	Jul.—104
Lighting Improvement Project Avoids Public Inconvenience	Aug.—94
Custom-Built Tower Truck Serves City	Sep.—102
Lighted Expressway Scores Safety Record	Sep.—164

### Surface Maintenance

Turnpike Maintenance Standards for Interstate Highways	Jan.—72
Planning and Budgeting Maintenance Operations	Feb.—186
Thin Bituminous Concrete Resurfacing This Street Program is a Success	Feb.—109
Story When and Where to Use Thin Bituminous Overlay	Apr.—104
Seal Coats Solve Our Maintenance Needs	May—130
Toll Road Pavements Protected with Linseed Oil Applications	May—108
Slurry Seal—A Useful Maintenance Tool	Jun.—123
Epoxy Resin Paving Cements	Jul.—97
Thin Bituminous Concrete Wins Popular Approval	Jul.—80
Sealing Contraction Joints and Cracks in Concrete Pavements	Jul.—103
"Hot Box" Developed to Serve Patching Crews	Jul.—96
Experiences with Slurry Seal	Oct.—102
Two Methods Combined to Reclaim Embrittled Asphalt	Dec.—114

### Surveying Methods

Electronic Equipment Speeds City Survey	Jan.—78
Photogrammetry for Sewer Record Maps	Apr.—100
Electronics Speeds Survey of Entire City	May—122
Geophysical Exploration Aids Sewer System	Aug.—124

### Traffic Control and Signs

Traffic Markers Illuminate Safety Dividers	Feb.—105
Computer-Controlled Intersections	Mar.—165
No Time Lag Between Paving and Striping With "Inlaid" Traffic Lines	Apr.—96
Paver Lays New Median Strip Over Old	Apr.—124
Half as Many Men—Twice as Many Signs	Apr.—162
Radio Control Network Speeds Traffic Flow	Jun.—112
Striping Program Launched by New Machine	Jun.—142
Maryland Tries Radio-Operated Median Gates	Jul.—78
County Strives for Uniform Traffic Control	Jul.—101
Vital Signs Replaced Quickly When Damaged	Jul.—116
Traffic Control by Computer Increases Street Capacity	Aug.—95
Congestion Computer Compiles Traffic Data	Aug.—150
Experimental Signals Designed to Cut Accidents	Sep.—117
Enlarged Shop Will Handle Turnpike Sign Replacement Program	Sep.—136
It Pays to Minimize Traffic Hazards During Road Construction	Oct.—126
Traffic Control Uniformity	Oct.—109
Clearing Out the Traffic Sign Jungle	Nov.—102

### Weed and Brush Control

Soil Sterilants Find Acceptance	Jan.—136
Drainage Ditches with Brush Problems	Mar.—105

Herbicides in Roadside Turf Management	Jun.—110
Chemical Mowing: A Success in Ohio	Jun.—117

### Highway and Airport Digest

Jan.—112; Feb.—150; Mar.—128; Apr.—124; May—146; Jun.—142; Jul.—116; Aug.—140; Sep.—150; Oct.—148; Nov.—118; Dec.—132.	
--	--

## REFUSE COLLECTION AND DISPOSAL

### Collection Methods

Factors in an Efficient Refuse Collection System	Jan.—128
Survey of Refuse Collection and Disposal	Feb.—162
Transfer Stations Replace Limited Maintenance Dumps	Apr.—91
City Establishes Profitable Refuse Collection System	Jun.—100
"Trim-Town" Refuse Containers	Jun.—166
New Trucks for Refuse Collection	Aug.—152
Ugits	Aug.—152

### Incineration

Municipalities Join in County-Wide Incineration Plan	Feb.—100
Sludge Incinerator Fly Ash Controlled by Cyclonic Scrubber	Feb.—113
Incinerator to Utilize Waste Heat for Steam Generation	May—100

### Sanitary Fill

Survey of Refuse Collection and Disposal	Feb.—162
County Landfill Reclaims Marshlands	Mar.—117
Finding the Lowest Cost for Refuse Disposal	Nov.—84

### Other Disposal Methods

Phoenix Will Compost All Municipal Refuse	Mar.—82
---	---------

### Costs

Modern Weighing Methods Speed Refuse Disposal	Jan.—74
Finding the Lowest Cost for Refuse Disposal	Nov.—84
Transfer Stations Replace Limited Maintenance Dumps	Apr.—91

### Refuse Digests

Jan.—120; Feb.—164; Mar.—140; Apr.—150; May—162; Jun.—156; Jul.—128; Aug.—152; Sep.—166; Oct.—153; Nov.—128; Dec.—144.	
--	--

## SEWERAGE AND SEWAGE TREATMENT

### Finance, Legal and Planning

Economic Implications of Industrial Waste Control	Feb.—64
Sewage Treatment Planning Continues to Face Needs	Feb.—116
Seattle Sewerage Program Schedules Major Projects	Feb.—138

A "Performance Audit" for Improving Pollution Control Practice	Mar.—58
Operating Report on Sewage Treatment	Mar.—156
Photogrammetry for Sewer Record Maps	Apr.—100
A Central City Serves Its Suburbs	May—98
Master Plan Prompts Sewerage Improvements	May—112
Officials Comment on the Commentary	May—206
Municipal Waste Treatment Needs	Jun.—50
Private Enterprise Prepared to Satisfy Sewage Disposal Needs	Jul.—62
Ordinances Bring Order to Sewer Extension Chaos	Jul.—79
Small Communities Gain from Treatment Plant Grants	Jul.—136
Private Enterprise Prepared to Satisfy Sewage Disposal Needs (Part 2)	Aug.—64
Brasil Introduced Water Pollution Control in Western Hemisphere	Oct.—82
Benefit-Cost Considerations in Water Quality Management	Dec.—66
Staged Development of Sewerage Facilities for a Suburban Area	Dec.—90
Sewage Treatment Plant is Privately Owned	Dec.—144

### Sewer Systems — Construction

How to Beat Labor Costs of Hot-Poured Joints	May—125
Leakage Tests for Sanitary Sewers	May—172
Steel Sewer Line Serves Alaskan Community	Jun.—115
A Field Method of Measuring and Recording Flow in Sewers	Jun.—124
An Improved Ceramic Clay Sewer Pipe	Sep.—128
Staged Development of Sewerage Facilities for a Suburban Area	Dec.—90

### Sewer Systems — Design

How Combined Sewers Affect Water Pollution—Part 1	Mar.—100
How Combined Sewers Affect Water Pollution—Part 2	Apr.—88
Steel Sewer Line Serves Alaskan Community	Jun.—115
Geophysical Exploration Aids Sewer System Planning	Aug.—124

### Sewer Systems — Maintenance

Modern Sewer Inspection Saves Money	Jan.—102
A Field Method of Measuring and Recording Flow in Sewers	Jun.—124
Photographing Sewers as Part of Maintenance	Jun.—162
Fighting Infiltration Into Sewers	July—158
Storm Sewer Cleaning Solves Overload Problems	Oct.—124
Storm and Sanitary Sewer Maintenance	Nov.—156
Clay Pipe Manufacturer Offers Mobile TV Sewer Pipe Inspection Service	Dec.—172

### Sewer Systems — Storm Drainage

Suburban Hydrology Can Improve Watershed Conditions	Jan.—93
Flood Conditions Studied for a County	Jan.—69
Storm Sewer Design by the Inlet Method	Jan.—86
How Combined Sewers Affect Water Pollution—Part 1	Mar.—100
How Combined Sewers Affect Water Pollution—Part 2	Apr.—88
Master Plan Prompts Sewerage Improvements	May—112
Underdrains Protect New Expressway	Jul.—105
Drainage Canals Planned Through Feasibility Study	Sep.—100
Trenching for Storm Drain Installation	Nov.—128
Determination of Run-off Coefficients	Nov.—74

### Sewage Pumping

Factors in Selecting Your Pump Motor	Mar.—107
Storm Water Pump Station Fits Residential Lot	Jul.—94
How New Orleans Prevents Storm Water Flooding	Aug.—110

### Sewage Treatment — Design

Pilot Projects to Aid Design of Interstate System Rest Areas	Jan.—76
Design Criteria For Waste Stabilization Ponds	Jan.—99
Air Compression in Waste Treatment	Feb.—96

	Month and page
Sludge Incinerator Fly Ash Controlled by Cyclonic Scrubber	Feb.—113
How Does Tank Depth Affect Plant Costs?	Apr.—66
Small Treatment Plant Gives Good Results	Apr.—102
Improved Waste Treatment Serves Increasing Population	Jun.—101
Factory-Built Plant Combines Aerobic Processes	Jul.—128
Grit Collection and Washing	Aug.—114
Developments in Activated Sludge Practice	Sep.—109
Package Plant Utilizes Contract Aeration	Sep.—166
Aeration Equipment for Lagoons or Ponds	Oct.—158
Fundamentals of Aerobic Biological Treatment of Waste Water	Nov.—77

## Sewage Treatment — Industrial Wastes

Economic Implications of Industrial Waste Control	Feb.—64
Re-Use of Water in the Steel Industry	Mar.—114
Water Quality Study Pinpoints Pollution Sources	Sep.—120
Complete Waste Treatment for a Paperboard Company	Dec.—99
Desalination Brine Waste Disposal	Dec.—117

## Sewage Treatment — Construction and Maintenance

When the Digester Dome Cracks, Seal It	Apr.—115
Removing Baked-On Sludge from a Digester	Jul.—82
Scum Blanket Damages Digesters	Sep.—129
Staged Development of Sewerage Facilities for a Suburban Area	Dec.—90

## Treatment Methods and Research

The Relationship Between Aquatic Organisms and Tastes and Odors	Feb.—106
A Study of Various Trickling Filter Media	Feb.—170
Using Tracers for Flow Study	Mar.—64
Waste Water Reclaimed for Golf Course Use	Mar.—88
Stabilized Chlorine Dioxide	Mar.—91
Operating Results of Septic Tanks and Sand Filters	Apr.—174
Chlorine	May—114
"Pasteurized" Water—Potable Supplies from Waste Effluents	May—131
Hypochlorites	Jun.—106
Biology of Trickling Filters	Jun.—128
New Flocculant for Dewatering Sewage Sludge	Jun.—156
Anhydrous and Aqua Ammonia	Jul.—86
Sulfur Dioxide	Aug.—117
Iron Salts for Water and Waste Treatment	Oct.—118
Preparation of Wastes for Biological Treatment	Oct.—170
Fundamentals of Aerobic Biological Treatment of Waste Water	Nov.—77
Use and Handling of Lime in Water and Waste Treatment	Nov.—96
Suds Control and Transfer	Nov.—107
Sodium Compounds in Water and Waste Treatment	Dec.—105
Project "Sample"	Dec.—110
Sludge Concentration Process	Dec.—164

## Costs

How Does Tank Depth Affect Plant Costs?	Apr.—66
Ordinances Bring Order to Sewer Extension Chaos	Jul.—79
Cost of Complete vs. Primary Waste Treatment	Dec.—167

## Sewerage Digests

Jan.—120; Feb.—164; Mar.—140; Apr.—150; May—162; Jun.—156; Jul.—128; Aug.—152; Sep.—166; Oct.—158; Nov.—128; Dec.—144
---

## Research in Sanitary Engineering Digests

Jan.—138; Feb.—176; Mar.—158; Apr.—164; May—194; Jun.—178; Jul.—152; Aug.—172; Sep.—198; Oct.—192; Nov.—148; Dec.—164
---

# WATER SUPPLY AND PURIFICATION

## Finance, Legal and Planning

Cost of Pumping Water	Feb.—120
Fluoridation Again Upheld by the Supreme Court	Apr.—82
A Central City Serves Its Suburbs	May—98
Conquest of Water: The Art of the Dutch	May—78
Selling More Water	May—186
We Save Nearly \$7,000 per Year on Chlorine	Aug.—108
Speedy Meter Reading With Trucksters	Aug.—162
Cold Weather Experiences by Illinois Water Works	Aug.—178
Adequacy of Public Water Utilities	Sep.—178
Elgin Starts \$2.4 Million Water System Improvements	Oct.—107
Complete Water System Development Sets Example	Oct.—114
Bill-Paying Made Easy	Oct.—121

## Water Pumping

Cost of Pumping Water	Feb.—120
Factors in Selecting Your Pump Motor	Mar.—107
Centralized Control for a Wide-Spread Water System	Mar.—95
New Pump Test Development Center	Jun.—186
Realistic Application of Aquifer Test Procedures	May—104
Pump Control Assures Constant Water Pressure	Sep.—183
Water for Space Vehicle Development	Oct.—176
Unique Water Supply Promotes Good Economic Climate	Dec.—112

## Reservoirs and Tanks

Increased Storage Improves Water System	Mar.—163
Tank Cluster Offers Elevated Storage Economies	Apr.—122
Water Storage with Eye Appeal	Oct.—122
60 MG Reservoir Can Be Cleaned While in Service	Nov.—90
Soil Engineering Saves Elevated Tank Costs	Dec.—86
Lining a 10-Million-Gallon Reservoir	Dec.—120

## Supply Lines and Distribution

Eight-Man Crew Lays 900 Ft. of Water Main a Day	Jan.—89
Municipal Water Systems—Key to Continuing Growth	Mar.—98
Canadian River Project Moves Ahead	Apr.—111
Water Department Improves Distribution System	May—178
Microfilm Brings Service Pipe Records to District Offices	Jul.—77
Dams, Dikes and Ditches	Sep.—104
Cross-Connections and Their Detection	Sep.—210
Elgin Starts \$2.4 Million Water System Improvements	Oct.—107
Complete Water System Development Sets Example	Oct.—114
Steel Pipeline Follows Watery, Rock-Bound Route	Nov.—99

## Treatment Plants — Design and Operation

H <sub>2</sub> S Removal from Water Without Air Pollution	Jan.—97
Filter Plant Pipe Galleries	Feb.—91
Can be Dry	Feb.—91
Rehabilitating a 40-Year Old Water Plant	Jul.—106
We Save Nearly \$7,000 per Year on Chlorine	Aug.—108

## Instrumentation and Process Control

Centralized Control for a Wide-Spread Water System	Mar.—95
Automated System Checks River Water Quality	Jun.—168
Philadelphia Extends Load Center Operations	Apr.—86
Electronic Water System Controls	Oct.—184

## Treatment Methods and Research

H <sub>2</sub> S Removal from Water Without Air Pollution	Jan.—97
Re-Use of Water in the Steel Industry	Mar.—114
Fluoridation Again Upheld by the Supreme Court	Apr.—82
Water Pretreatment Facilities Lick Algae Problems	Apr.—94
Methods of Treating Cold Weather Algae with Copper Sulfate	May—188
Chlorine	May—114
"Pasteurized" Water—Potable Supplies from Waste Water Effluents	May—131
Hypochlorites	Jun.—106
Sedimentation Basin Design and Operation	Jun.—119
Anhydrous and Aqua Ammonia	Jul.—86
Sulfur Dioxide	Aug.—117
Saline Water Conversion Plant Serves Entire Needs of a Municipality	Aug.—178
How Safe is Fluoridated Water? Chemicals for the Fluoridation of Water	Sep.—123
Activated Carbon Treatments for Taste and Odor Control	Sep.—131
Iron Salts for Water and Waste Treatment	Oct.—118
Use and Handling of Lime in Water and Waste Treatment	Nov.—96
Sodium Compounds in Water and Waste Treatment	Dec.—105
Desalination Brine Waste Disposal	Dec.—117

## Water Supply and Sources

Industrial Needs Prompt Switch to Lake Water Supply	Jan.—84
Meeting Future Demands for Water	Feb.—146
Re-Use of Water in the Steel Industry	Mar.—114
Water Well Screen for Intake Service	Mar.—124
Canadian River Project Moves Ahead	Apr.—111
Realistic Application of Aquifer Test Procedures	May—104
Automated System Checks River Water Quality	Jun.—168
Saline Water Conversion Economies Being Studied	Jul.—68
New Water Supply for Southern California Area	Jul.—124
Invisible Film Cuts Water Loss From Reservoirs	Jul.—140
Dams, Dikes and Ditches	Sep.—104
Adequacy of Public Water Utilities	Sep.—178
Water Quality Surveillance in the United States	Oct.—98
Wind-Film Barrier for Evaporation Control	Oct.—186
Unique Water Supply Promotes Good Economic Climate	Dec.—112

## Water Works Digest

Jan.—130; Feb.—130; Mar.—148; Apr.—136; May—178; Jun.—168; Jul.—140; Aug.—162; Sep.—182; Oct.—176; Nov.—138; Dec.—154
---

# ADMINISTRATION AND PLANNING

The National Highway Research Program and the University	Jan.—67
Why Not Give Planning Credit Where Credit is Due?	Feb.—94
Cooperation Makes Possible a Metro- politan Area Public Works Program	Feb.—88
How to Rebuild a City with Urban Renewal	Feb.—117
Community Growth Brings Public Works Problems	Apr.—99
What Does the Federal-Aid Highway Program Mean to You?	Apr.—107
Legal Liabilities of Public Works Agencies	Apr.—159
"So You Can't Beat City Hall"	May—154
Microfilm Brings Service Pipe Records to District Offices	Jul.—77
Decentralized Operations Improve Service	Jul.—92
Capital Improvements and Public Relations	Jul.—83
They Even Sell the Ashes!	Aug.—98
Excavations are Unsafe	Sep.—116
Meeting the Demand for Engineering Services Today, While Planning for the Future	Sep.—114
Chicago Capital Improvements Program	Dec.—174

Month  
and page

## AIRPORTS

Glarefree Lighting for Air Terminal	Feb.—112
Tunnel Between Cities Facilitates Airport Expansion	Mar.—84
New Techniques Used for Clearing Airport Runways	Apr.—84

## DAMS AND FLOOD CONTROL

Suburban Hydrology Can Improve Watershed Conditions	Jan.—93
Flood Conditions Studied for a County	Jan.—69
Drainage Ditches with Brush Problems	Jan.—105
How New Orleans Prevents Storm Water Flooding	Aug.—110
County Park Agency Helps Solve Flood Problems	Aug.—100
City-County Project Improves Flood Plain	Aug.—128
Drainage Canals Planned Through Feasibility Study	Sep.—100
Liability From Drainage and Flood Control Works	Sep.—160
Cincinnati Remodels and Automates Flood Control	Oct.—111
Dams Substitute for Bridges	Nov.—72
Small Watershed Project Eliminates Flood Hazards	Dec.—103

## MUNICIPAL POWER PLANTS

Municipal Power—Motor Bearings	Jan.—143
Dependable Power at Low Cost	Feb.—172
New Engine Boosts Generating Capacity, Cuts Unit Costs	Apr.—148

## INSECT AND RODENT CONTROL

Controlling Salt Marsh Mosquitoes	Feb.—163
-----------------------------------	----------

## PUBLIC HEALTH

Stabilized Chlorine Dioxide	Mar.—91
Sanitary Engineers—Solvers of Problems that Affect People	Apr.—144
Officials Comment on the Commentary	May—206
Control Problems on an Interstate Watershed	Aug.—126
How Safe is Fluoridated Water?	Sep.—78
Cross-Connections and Their Detection	Sep.—210
Water Quality Surveillance in the United States	Oct.—98

## RECREATIONAL FACILITIES

Attractive Pavilion	Feb.—174
Waste Water Reclaimed for Golf Course Use	Mar.—88
No Unused Areas in Swimming Pool Design	Jun.—104
County Park Agency Helps Solve Flood Problems	Aug.—100
Dams Substitute for Bridges	Nov.—72
Aluminum Zoo for Playground Roughriders	Dec.—145

## GENERAL AND MISCELLANEOUS

A Modern Concept for Mass Transportation	Jan.—92
American Institute of Steel Construction	Jan.—100
The American Road Builders' Association	Feb.—119

Month  
and page

The National Corrugated Metal Pipe Association	Mar.—118
Dust Control Makes Industry a Good Neighbor to Residential Area	Mar.—137
The Cast Iron Soil Pipe Institute	Apr.—113
Sanitary Engineers—Solvers of Problems that Affect People	Apr.—144
Checkerboard Sea Wall Saves Beaches	May—110
The Steel Plate Fabricators Association	May—134
All-America City Title for 11 Communities	May—202
The National Slag Association	Jun.—130
A Challenge: Preservation of Shade Trees	Jun.—95
Study Considers "Driver Inattention" Accidents	Jun.—114
New Pump Test Development Center	Jun.—186
The Plastics Pipe Institute	Jul.—108
Rest Room Use at Turnpike Service Plazas	Jul.—147
The Chlorine Institute	Aug.—130
The National Crushed Stone Association	Sep.—135
How to Build Three-Dimensional Models	Oct.—123
The Prestressed Concrete Institute	Oct.—134
American Iron and Steel Institute	Nov.—108
Drafting Technique Cuts Map Production Time One-Third	Nov.—154
A New Idea in Urban Transportation	Dec.—119

## CIVIL DEFENSE AND EMERGENCIES

Chlorine-Barge Salvage Achieves Status of a "National Emergency"	Jan.—60
CD Communications for a County	Feb.—142

## ABOUT OUR COVER

Fred J. Benson	Jan.—1	18
Robert F. Baker	Feb.—1	18
C. M. Thelin	Mar.—1	18
A. Turner McDonald	Apr.—1	18
Gerald J. Remus	May—1	18
Howard S. Ives	Jun.—1	18
Glen H. Abplanalp	Jul.—1	18
Walter E. Tacke	Aug.—1	18
John A. Lammie	Sep.—1	18
Clarence E. Keefer	Oct.—1	18
Stanley C. Palmer	Nov.—1	18
William S. Wise	Dec.—1	18

## AUTHORS

Alcock, W.—"How Safe is Fluoridated Water?"	Sep.—78
Anderson, H. Kenneth—"Water Storage with Eye Appeal"	Oct.—122
Baile, Arthur S.—"Gravel Roads Make Special Problems"	Sep.—118
